CRIMES AND ACCIDENTS. my Fool can Destroy-Only the Man ords of disaster and death. Stupidity, ignorance

make life worth having, is the joint product o nature and education. For this reason Dr. David Kennedy, of Rondout, N. Y.,has cause to be both proud and thankful that his name is gratefully mentioned by so many whom he has healed or helped, "Kennedy's Favorite Remedy" has become a household word. Everybody sooner or later, gets sick, and sickness is both wearisome and costly. "Favorite Remedy " steps in at this point. It is not expensive and it is efficient. For all diseases of the Blood. Bilious Disorders, Kidney Complaint, Constipation, and the aches and ills which make the domestic life of women a cross so hard to bear, "Kennedy's Favorite Remedy" has been successfully used by thousands. It will build up a system which has been run down by overwork. It is the thing for the student and literary man to have at hand, and should be in the home of every mechanic. "Favorite Remedy,' is economical, safe and pleasant. Buy it and try it; or, if you need advice as well, write to Dr. Kennedy, who is in active practice as a surgeon and physician at Rondout, New York. "Dr. Kennedy's Favorite Assets

GOLDSMITH'S PLANOFORTE WAREHOUSE

Insurance Company.

OLD, PRO PROUS AFE, LARGE, STRONG, PURELY MOTUAL

Surplus

45,000 Policies in Force.

1. A Large and Strong Company.

The New York Life has age and the stability which brings success. It has been in operation over thirty-five years, and at the beginning of 1880 had over 45,000 policies in force, covering over \$127,000,000 in insurance. For the security of these policies the Company held nearly, thirty nine million dollars, being \$121,000 over every \$100 of liabilities by the State Standard.

3. A Liberal and Progressive Comp ny, company. It anticipated the New York State Law on the subject, in time by over nineteen years, and in liberality to the insured by giving more than

4. A Rapidly Growing Company. The last ten years include the six years of depression that followed the panic of 1873; yet during these ten years the increase in the Company's assets has been nearly three-fold, and the increase in surplus and interest receipts over three-fold. During this time the annual disbursements to policyholders have risen from \$2,538,303 to \$4,848,490, and have aggregated the inconceivable sum of forty million dollars (\$40.301,232). Its interest receipts along have been upward of fifteen millions and have more than paid its death-losses.

5. A Solid and Vigorous Company.

The New York Life has held its business, in spite of the "hard times," better than any other prominent company. The falling off among these from the highest point reached since the panic of 1873, has been nearly twenty per cent. on an aver age both of income and insurance in force: while in the New York Life the falling off has been only about two per cent. of income and less than one-half of one per cent. of insurance in force. A Wide-Awake Company.

The New York Life has issued over 140,000 policies, insuring over \$420,000,000. It has received over \$85,000,000 in premiums and nearly \$25,000,000 in interest and rents. It has paid over \$20,000,000 in death-claims, and returned over \$31,000,000 to living policyholders. The amount of its present assets, plus its payments to policyholders and their families, equeeds the sum received from them by nearly six million dollars.

issued and in force; and a decrease in death-loss-es, resulting from a careful selection of lives and

8. A Company with A No. 1 Securities. The securities of the New York Life are of the very highest order, the interest on which is collected when due. The entire amount of its uncollected interest, including the amount accrued or earned but not yet due, upon its investments January 1st, 1880, was but \$317,989.11. This was only about eight-tenths of one per cent. of the Company's entire assets, being the lowest ratio of any prominent company and in notable contrast with some. At the date above given its bonds and stocks were worth nearly a million dollars more than cost.
